

HARRY MARTIN SECTION 9 LOT 5 SPACE 8

The caption above his picture in the Indianapolis Star reads: "Victim of Fatal Spill at Speedway"

"Harry Martin, racing mechanic for the Stutz Motor Car Company, was killed and Frank Agan, car tester for the company, was severely and perhaps fatally injured at noon yesterday when a new Stutz racer turned over after throwing a tire on the Motor Speedway. Agan is in the city hospital, where surgeons are working desperately to save his life..."

Mr. Martin, 23, a former resident of Peru, was a licensed driver under the American Automobile Association ruling. It was said that his ability to understand what was wrong with his car made him valuable to the racing team.

On his marker is a steering wheel with this inscription: "In Memory Of Our Esteemed Associate." Buried June 28, 1913.
