

## Unknown Gravesites

Unknown gravesites ... there are over 100 recorded locations in the cemetery listed as stranger dating in the 1800's to mid 1900's; none of them appear to have ever had a marker. All that is listed in the record books is the word "Stranger" with a location; many times a date is not even recorded.

However, in several locations in the plat books it reads, "Stranger, John," "Stranger's Wife" or "Stranger's Child;" in some places it reads "Stranger (Colored)" or "Stranger (Irishman)."

There are also several locations that are just marked as "Grave" neither name nor date given.
